INFANT MORTALITY.

players are used to.

The attention of the Town Council at Johannesburg, Transvaal, was last year directed to the fact that out of eightyfour infants, who died in December, forty-four of them had died of dysentery. An investigation with a view of tracing the source of the disease was authorized. Under the best of conditions attacks of dysentery are very prevalent among children in warm weather, but in a large majority of The Fourth selected members to sit cases the lives of the little ones can in the County Committee as follows: E. be saved by the use of Chamberlain's M.
